## <SOFTWARE ENGINEER>

| [github.com/Jfrancioso](https://github.com/Jfrancioso) |

Accomplished software engineer and U.S. Army Combat Medic veteran passionate about developing and deploying successful web applications. Proficient in C#.NET, Vue.js, and MSSQL database management. As a recent graduate from a .NET web application program, I am eager to apply my skills and commitment to a purpose driven company.

## TECHNICAL SKILLS

---

- **Programming Languages:** C#.NET | Java | JavaScript
- **Web Development:** ASP.NET Web API | HTML | CSS | Vue.js | TypeScript | React
- **Database Design and Management:** SQL | ADO.NET | Table Design | E/R diagrams
- **Testing and Quality Assurance:** Unit Testing | Integration Testing | Jest
- **Tools and Platforms:** Unix | Git | GitHub | Visual Studio | Visual Studio Code

## TECHNICAL EXPERIENCE

---

- **Weather-Application (TSX | React | Google Geocoding API | US Nation Weather Service API | US Census Geocoding API)** - Developed a front-end 7-day weather forecast application using geolocation.
- **Agave Atlas (C#.NET | Visual Studio | MSSQL | Visual Studio Code | NOAA National Weather Service API | Yelp API | Twitter API | SmtP Email capabilities)** - Developed a full-stack margarita finder web application that provides users with a curated list of margarita bars and restaurants, integrating weather data, user ratings, and reviews.
- **Project PlatoonMedic (C#.NET | Visual Studio | MSSQL | Postman)** - Developed a SQL database project created to aid army combat medics in tracking platoon health more efficiently. Designed the database schema and server-side MVC architecture.
- **Tenmo CashWave (C#.NET | Visual studio | MSSQL | Postman)** - Developed a Venmo-like console application featuring user authentication, balance management, and transaction history.
- **PlushPalooza VendoMatic (C#.NET | Visual studio | CSV)** - Developed a console application simulating a vending machine for stuffed animals, featuring money handling, purchase functionality, and generating transaction logs.
- **PurrfectFlight (C#.NET | Unity)** - A unity based side-scroller game, akin to the mobile app 'Flappy Bird'.

## EDUCATION

---

### Tech Elevator, Cleveland, OH

January 2023 – April 2023

Graduated from a 14-week full-stack coding bootcamp learning how to create dynamic web-based software systems using .NET/C# providing 800+ hours of development education and application.

### Cleveland State University, Cleveland, OH

2016 – 2021

Bachelor's of Science - Health Sciences

Minor - Biology

## WORK EXPERIENCE

---

### Ohio Medical Alliance, Remote

Healthcare Patient Support - Team Lead and Delegate

JANUARY 2019 – JANUARY 2023

- Oversaw sensitive health information for over 100,000 patients through precise data entry.
- Implemented a time-gap script tracker for employees, reducing monitoring time from 1 week to 1 day.
- Provided comprehensive training and education for patient support on the Ohio Board of Pharmacy rules and regulations.

### United States Army, Fort Campbell, KY

Healthcare Specialist - Combat Medic and Battalion Clinical Medic

JANUARY 2012 – JANUARY 2016

- Triaged patients, established casualty collection points, and a medical evacuation plan as a combat medic.
- Administered emergency trauma care and routine medical treatment during non-combat and combat operations.
- Trained over 500 soldiers in combat casualty care scenarios.
- Applied real-world medical treatment to both American forces and Afghan National Security Forces during deployment.
